#### What is the Gretna Community Foundation?

In 2011, a charitable group of long time residents came together to form the Gretna Community Foundation (GCF) in partnership with the Midlands Community Foundation.

This allowed the generous people of Gretna to donate to community needs and establish designated giving under the professionally managed 501(c)(3) umbrella of the Midlands Community Foundation.

We encourage you to learn about the legacies being created today and join the Gretna Community Foundation in supporting our future growth. Your input on potential projects to fund and the direction you want for YOUR community is very important to our foundation board members and donors.
